C. Report on Library Card Registration Task Force
Behringer shared the results of the Library Card Registration Task Force. The Directors have agreed to implement Level 1 and support additional study for the creation of an online registration service, as outlined in Level 3.

D. Fund Balance Assignments
After completing the 2017 audit fieldwork there were funds remaining that could be assigned. In addition to those assignments consistent with prior years, the following assignments were proposed by the Advisory Board at their March 9th meeting:

- **Dollars remaining in current fund balance assignments to existing programs (smARTpass, BookLens, SELfe, etc.) be retained into 2018.**
- **In addition:**
  - assign $80,000 in the fund balance (eight MELSA systems X $10,000 each) for an additional year of platform fees. The discount will next be applied in January 2019 (on all 2018 purchases) and this action would permit us to show platform fees secured for 2019 and 2020.
  - assign $100,000 within the fund balance for automating the library card registration process between member library systems to improve user services and simplify data exchanges for both home and visited library systems. This figure should permit software development and several years of follow-up support and maintenance.
  - Retain and supplement the existing fund balance reserve to offset reductions in Regional Library Basic System Support (RLBSS) from the State.
    - reauthorize the $300,000 the currently remains in that assignment.
    - assign $300,000 to reduce the effects of these RLBSS reductions in 2019; and an additional $200,000 for the same purpose in 2020.

Motion by Gamache to authorize the recommended assignments. Second by Goettel. Motion carried.
